# BLUE FAUCET™

— Takes care of your business —

**Are you a small merchant who relies on repeat customers to keep your business thriving?**

**BlueFaucet serves as your 24/7 virtual assistant**, keeping your business running proactively.

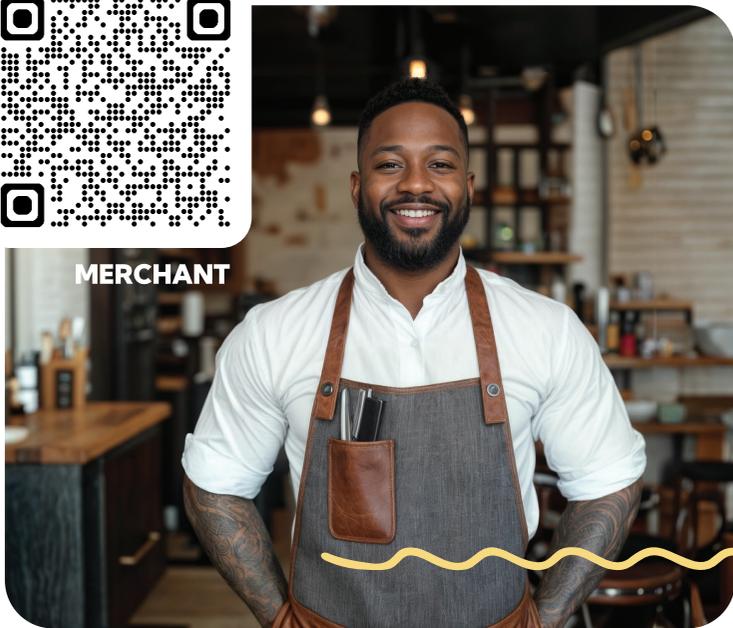

Welcome to Bluefaucet

MERCHANT

## What BlueFaucet Can Do to Boost Your Business?

BlueFaucet's design is centered on driving real orders to you.

Key features include **retaining customers, identifying new business opportunities, sending targeted promotions, and reducing routine tasks.** With a one-time setup, BlueFaucet operates seamlessly without requiring daily management.

**For example,** if a customer gets a haircut every eight weeks, BlueFaucet automatically sends them an appointment reminder in the seventh week, along with a coupon for color treatment. This encourages regular bookings and boosts the barbershop's business opportunities.

**BlueFaucet handles the routine tasks so you can focus on delivering exceptional customer care.**

## BlueFaucet in Action

Our services help small businesses overcome common challenges with tailored support and solutions.

**John, a restaurant owner** with 500 loyal customers, needed 1,000 customers to be profitable. Instead of spending on ads, John used BlueFaucet's marketing tool to reach his goal.

By sending a 50% discount coupon to existing customers who brought in a friend, John quickly doubled his customer base within a month and achieved profitability.

**Mary, the beauty salon owner,** was tired of waiting for walk-in customers, so she started using BlueFaucet to encourage advance bookings. BlueFaucet automatically sent her 10% discount coupons with appointment invitations to all her customers, helping Mary fill her schedule and reducing idle time.

Now, she enjoys a more organized workflow and increased bookings.
